FEVER AND AGUE. Dr. Townsend's Sarsaparilla is unequalled in ca-ses of the Chills and Fever and Ague. The follow-ing letter is one of hundreds that we have received from the South and west of like character.

Oswego, Mich., Oct. 22, 1847. Dr. Townsend: Dear Sir-I purchased for my wife two bottles of Sarsaparilla of your Agent, Mr. McNair, of Kalamazoo, to try it for the Fever and Ague. Before I had finished the first bottle, it appeared to warm the blood, and every other day, when the Chilis and Pever appeared, they were less violent; and before she had finished the bottle, she was entirely relieved, and she was much better than she had been before she took the Ague. A lady that had been very sick with the Chills and Fever, but had broke them with Quinine, and was left in a very weak and distressing state, and troubled exceedingly with the Hgue Cake, seeing the effect that it had on my wife, she sent and proceed a few bottles, and it restored her in a few weeks to complete health Your Sarsaparilla is without doubt, unequalled in diseases incident to the West, and if you think that this communication will be of use, you are at liberty to use it as you choose. Two Medicine has acquired a very extended and established reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained. The CR formulae victim of heroditary disease, with swollen glands, con tracted spews, and hones half carious, has been restored to health vigor. The scrofulous patient, covered with ulcers, losthsome to himself and his attendants, has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandmar disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rank of disease, and now, with regenerated constitutions, glashy testify to the efficacy of this inestimable preparation. The testimony of those who have been cured by its use, with their residences, has been published from time to time; and were it desirable, a mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value. The afflicted, and those who have not used this medicine, are invited to make a trial of its virtues, and appropriate to themselves the bezefits which it alone can bestow. Messers. Sawes:—Gentleman I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinute Carcasone Lucas on my breast.

I was attended eightnen months by a regular and skilful physician, assisted by the advice and counsel of one of our most able and experienced surgeons, willout the least benefit whatever. At the various methods of treating cancer were resorted to for five seess in succession my breast was burned with causist three times aday, and for six is was duity sytinged with a weak solution of nitric acid, and the cavity or internal ulter was so large that it held over an source of the solution. The doctor probed the slicer and examined the bone, and suid the disease was advancing rapidly to the lungs, and if I did not get speedy relief by medicine or an operation, the result would be fatal. I was advised to have the breast laid open and the bones examined; but finding no relief from what had been done, and feeling I was rapidly getting worse. I almost despaired of secondary and considered my case nearly hopeless.

Seeing various testimounals and certificates of cure by the use of Saray Saraya, state, in cases similar to my www. I concluded to try a few bottless, several of which were used, but, from the long deep-seated character of my disease, produced no very decided charge. LIVER COMPLAINT.

The following is an extract from a letter received from Rev. William Galusha: Messes Saves:—I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years, suffering at times what language cannot convey; but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my histories, and preach occasionally, for the last fifteen months. I wholly disearded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and snocinty to all those who are in any way afflicted with any species of scrotulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I Shaw, by the use of size bottles, was restored to better health than she nad before entogened for ten years, and Mrs. W. Stevens, who had been severely afflicted with Erystpelas, was entirely cured by the use of a few bottles.

Yours truly,

CURE OF A SCROFULOUS AFFECTION OF THE EYES. Messes Sasse:—Gentlemen—My little daughter, when one year old, was attacked with a scrotnious humor on her face, which soon after extended into her eyes, causing almost total blundness in one of them, and disfiguring her whole face. I employed two physicians to altend her, who exhausted their atmost skill to give her neiter, but if all proved userses, and finally one of them remarked to me that he had known of some straining curse effected by Sanse' Sarsspanila, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint.

Respectfully yours.
